Before you begin the questionnaire you will need your student's Sherwood School District ID number. This number is how we identify your student in the band program's database.

STUDENT MEASUREMENTS

It's important that all students - even returning marching band students - provide their current measurements. You will need a fabric tape measure, current weight and current height before you begin. Our marching band uniform inventory consists of 1,550 pieces all of varying sizes, enough for 140 students. The available inventory is matched up to each student based on the measurements that you provide. On August 11 each student will try on their uniform to fine-tune the fit of each piece.
